MEMORANDUM FOR COMMANDER, NAVAL AIR SYSTEMS COMMAND

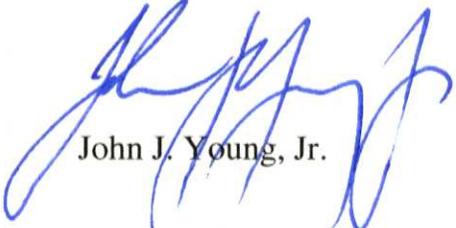

SUBJECT: Assignment of Technical Authority for Department of Navy (DoN)  
Anti-Tamper (AT) Implementation to Commander, Naval Air  
Systems Command (COMNAVAIRSYSCOM)

This memorandum assigns the technical responsibility for DoN AT implementation to COMNAVAIRSYSCOM.

In August 2000, ASN (RD&A) assigned Navy technical and policy responsibilities for AT to ASN (RD&A) CHENG. In accordance with SECNAVINST 5400.15 and effective immediately, COMNAVAIRSYSCOM shall assume AT technical authority roles and responsibilities for all DoN acquisition and technology development programs that contain critical technology. ASN (RD&A) CHENG will retain the responsibilities for AT policy development and coordination.

The DoN AT technical authority shall, in coordination with other SYSCOMs, establish and implement the appropriate technical authority organization to perform this function. COMNAVAIRSYSCOM will be vested with the authority, accountability, and resources necessary to manage all aspects of this initiative.

My point of contact is my Chief Engineer, Mr. Carl Siel at (202) 781-3971, [carl.siel@navy.mil](mailto:carl.siel@navy.mil)
